Dear Colleagues,

It is indeed a privilege and pleasure for the 1st Department of Propaedeutic Surgery of Athens University, to welcome you to Greece.

The 1st International Conference on Laparoscopic and Open Hepato-Pancreato-Biliary (HPB) surgery is designed to provide the participants with the results of the most recent developments in open and laparoscopic surgery in the field of HPB cancer.

Experts from all over the world will present their own experience and discuss the indications of the use of minimal Invasive Surgery in HPB pathology.

We hope that you will enjoy the meeting since all participants will have the chance to profit from the views expressed by the prominent speakers. Furthermore, the formation of multinational research groups will be encouraged.

The combination of the high scientific quality and the stimulating environment will hopefully make our Conference memorable.

The organizing committee is delighted to welcome you all to the city of Athens.

G. Androulakis
Honorary President

E. Leandros
